WE ARE THE EXPERT
IN FOOD PACKAGING INDUSTRY

食品包装 问题解决专家

Nantong Hengli Packaging Technology Co., LTD
南通恒力包装科技股份有限公司

COMPANY PROFILE

Professionalism comes from perseverance, excellence comes from constant improvement
恒久才能专业 · 力求才能致精

Stock code: 871060
证券代码 871060

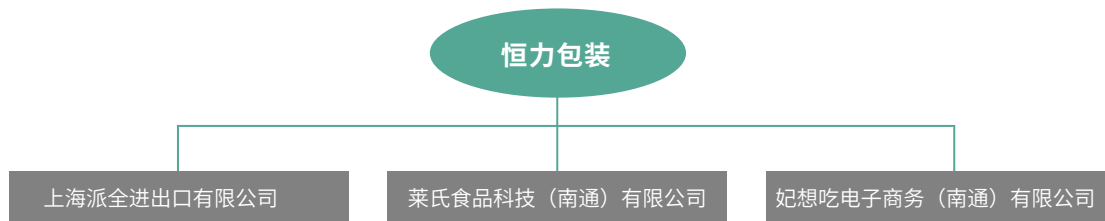

企业简介

Since 2004 成立于 2004 年

Hengli has been committed to providing packaging application services to enhance the competitiveness of customer products. Hengli's machinery has so far been extensively employed in sectors including food, pharmaceutical, health products, medical equipment, personal care, pet products, agricultural products, and industrial products. Hengli has always advocated a comprehensive and multi-faceted solution to assist customers in resolving their packaging-related issues. The main objective is to increase the competitiveness of customers' products and lower labor costs in order to increase production efficiency and generate more advantages and promote the industry's development.

恒力包装科技股份有限公司一直致力于提供包装应用方面的服务以增强客户产品的竞争力，目前涉及到的领域广泛，主要覆盖食品、制药、保健品、医疗器械、洗护用品、宠物用品、农产品和工业品这八大行业。恒力包装一贯倡导全周期、多方位地解决客户的包装问题，将提升客户产品竞争力和降低客户用人依赖性，从而获得更高生产效率和更多利益作为首要目标，以此促进行业的更好发展。

Hengli has also founded 3 additional controlled firms in order to offer clients in many industries comprehensive, multi-channel, and broad service. They are: **Shanghai Omnipack Import&Export Co.,Ltd., Lai's Food Technology (Nantong) Co., Ltd., and Fei Xiang Chi E-commerce (Nantong) Co., Ltd.**

恒力包装旗下还开设了：**上海派全进出口有限公司、莱氏食品科技（南通）有限公司和妃想吃电子商务（南通）有限公司** 3 家关联企业，只为全方位，多渠道、宽领域地满足各行业客户的需求。

You to save 80% of labor expenditures, boost output, and unleash productivity!
为您节省 80% 的人工成本，提高您的产量，解放生产力！

We are able to provide the solution for varies of counting and filling equipment

什么都能数，什么都能装！

ADVANTAGE OF HENGLI 我们的优势

Counting filling technology 计数包装

Hengli's key technical advantages enable fast, precise counting and filling of objects of varied sizes, shapes, and materials.

恒力包装的核心技术优势，对于各种大小、形状、材质的物品都可以做到高速精准数粒、分装。

Combining packing products 混合包装

To address the demands of consumers for packaging innovation, different types of products are measured individually in accordance with various specifications and blended into containers.

对于不同种类的产品按照不同的要求分别计量并混合装入容器，满足用户包装创新的需求。

Adaptable packaging 柔性包装

Hengli Packaging develops cutting-edge packaging solutions. Your demands for product specification variety can be satisfied by one adaptable packing system.

恒力包装创新包装技术，一套包装设备就可以满足您产品规格多样化的需求。

Packing project 包装工程

Hengli is capable of realizing whole-line package engineering that is consistent and methodical, as well as coordinated planning and coordinated implementation of primary packaging, process packaging, and terminal packaging. Verify the stability and effectiveness of the packing system.

恒力包装能够实现一致性、体系化的整线包装工程，一次包装、过程包装、末端包装统一规划、统一实施。保证包装系统稳定、高效。

Machines won't be job hopping

机器不跳槽！

Machine won't want year-end bonus

机器不要年终奖！

Machine won't cause human hidden trouble

机器不会造成人为隐患！

- A unique package design was produced by combining four sets of four vibration channels counting filling machines
 - Multi-variety mixed packing for quick food that is handy and offers individualized recipes for each customer
 - The materials meet the hygiene standards of food processing industry, and the food safety can be guaranteed
 - Setting pages for human-computer interaction, storing parameters, operating intelligently, and being quick and easy
 - Expand consumption situations, improve the idea of flexible packaging, and make an effort to incorporate packaging technology into daily life
- 组合四台四通道设备的创新型包装模式
 - 多品种方便速食混合包装，定制食谱，呈现个性化的消费体验
 - 人机交互页面设置，参数存储，智能操作，简便快捷
 - 提炼柔性包装概念，扩充消费场景，致力将包装技术融入生活

Quick-frozen food counting bagging machine

速冻食品计数装袋机

Personalized product packaging Enhance the packaging efficient Simplify the packaging process Intelligente packaging system
让包装更精彩, 让包装更给力, 让包装更轻松, 让包装更科技!

High rate of packing!
快速包装!
No food was broken!
不伤物料!

Product samples 产品样品

Suited for bag packaging of items such as quick-frozen dumplings, steamed buns, shumai, croissants, balls, and others 适用于速冻水饺、馒头、烧麦、牛角包、丸子等多种物料装袋

Machines won't be job hopping

机器不跳槽！

Machine won't want year-end bonus

机器不要年终奖！

Machine won't cause human hidden trouble

机器不会造成人为隐患！

- Any shape, size and texture of frozen materials can be accurately identified and efficiently packaged
- The entire packing procedure is carried out in a low-temperature setting, and the automated packing is done in a flexible manner
- Food safety is assured since the processed machine material complies with industry requirements for cleanliness in the food processing sector
- Vibration track with self-adjusting amplitude, gentle packaging, no broken to products
- In order to satisfy a range of packaging requirements and raise the quality of packaging, it may be integrated into a comprehensive packaging production line with other equipment
- 任何形状、大小、质地的速冻物料 都能精准识别，高效包装
- 全流程在低温环境下操作，灵活完成自动化包装工作
- 用材符合食品加工行业卫生标准，食品安全可以保障
- 振动轨道可自行调节振幅，轻柔的包装处理，不损伤产品
- 可与前后道组成完整的包装生产线，满足多种包装形式，帮助提升包装水平
