COMPANY PROFILE

Stock code: 871060
证券代码 871060

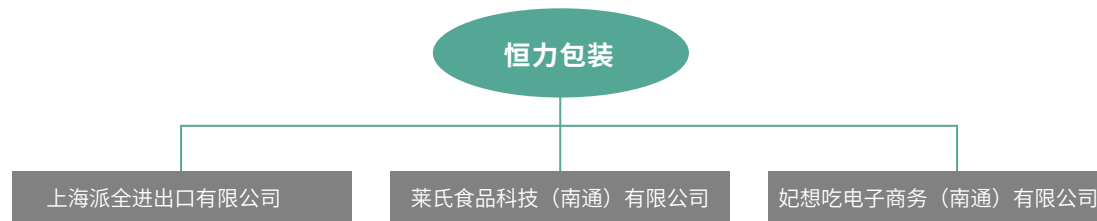

企业简介

Since 2004 成立于 2004 年

Hengli has been commitment to providing packaging application services to enhance the competitiveness of customer products. Hengli's machinery has so far been extensively employed in sectors including food, pharmaceutical, health products, medical equipment, personal care, pet products, agricultural products, and industrial products. Hengli has always advocate a comprehensive and multi-faceted solution to assist customers in resolving their packaging-related issues. The main objective is to increase the competitiveness of customers' products and lower labor costs in order to increase production efficiency and generate more advantages and promote the industry's development.

恒力包装科技股份有限公司一直致力于提供包装应用方面的服务以增强客户产品的竞争力，目前涉及到的领域广泛，主要覆盖食品、制药、保健品、医疗器械、洗护用品、宠物用品、农产品和工业品这八大行业。恒力包装一贯倡导全周期、多方位地解决客户的包装问题，将提升客户产品竞争力和降低客户用人依赖性，从而获得更高生产效率和更多利益作为首要目标，以此促进行业的更好发展。

Hengli has also founded 3 additional controlled firms in order to offer clients in many industries comprehensive, multi-channel, and broad service. They are: **Shanghai Omnipack Import&Export Co.,Ltd., Lai's Food Technology (Nantong) Co., Ltd., and Fei Xiang Chi E-commerce (Nantong) Co., Ltd.**

恒力包装旗下还开设了：**上海派全进出口有限公司、莱氏食品科技（南通）有限公司和妃想吃电子商务（南通）有限公司** 3家关联企业，只为全方位，多渠道、宽领域地满足各行业客户的需求。

TECHNICAL EXPERTISE

我们的业务模块

Hengli excels at offering a range of packaging options to customers, enabling them to implement creative packaging concepts and raising their level of market competitiveness.

恒力包装擅长解决各式包装问题，帮助客户实现多样化的包装创意，以此提升市场竞争力。

SOLUTION CONSULTING
包装咨询

Hengli's main piece of equipment is the counting filling machine. Based on this, Hengli also has a variety of unique patented technologies, such as mixed packaging, Adaptable packaging, turnkey packing project, customized packaging, mixed metering packaging, quick feeding equipment, and intelligent packing equipment, among others.

恒力包装拥有以数粒包装为核心的多项技术优势，其中还包括混合包装、柔性包装、包装工程、个性化包装、混合计量、快速投料以及智能设备这几大方面。

PACKAGING TECHNOLOGY
包装技术

Hengli is the market leader in the packaging sector and has a skilled R&D team for both software and hardware. Solutions that are specialized to the demands of the customer in order to satisfy various packaging requirements.

恒力包装集合行业之所长，拥有专业的设备研发团队，根据客户需求开发定制方案，以满足不同场景下的包装形式。

PACKAGING MACHINERY
包装设备

As the foundation of the entire packaging industry, packaging materials are the key to developing packaging technology, improving packaging quality and reducing packaging costs. Hengli is committed to helping customers find and apply better and more advanced packaging materials and equipment.

包装材料作为整个包装工业中的重要环节，是发展包装技术、提高包装质量和降低包装成本的基础，恒力包装致力于让包装更科技、更精彩、更轻松、更给力。

PACKING MATERIAL
包装材料

全方位为您解决包装问题!

Help you with a comprehensive packaging solution!

BUSINESS PARTNER

合作客户

Hengli has expanded quickly since its founding in 2004 and its advantages have continually increased. Hengli specializes on the development and sale of equipment for packaging solid products. Considers the fundamental tenet of "be collaborators with clients, learn further from clients, advance and grow with clients" to be of the highest quality and sincerity. Hengli has built a solid name in the market and garnered the admiration and love of its customers. The goods are popular both domestically and overseas.

恒力包装自创建以来,发展势头迅猛,效益稳步增长。恒力包装以研发、生产、销售固体制剂包装生产设备为主业,将“以用户为友,拜用户为师,想用户所想,急用户所急”作为首要行动指南,以优良的品质、至诚的信誉,在业内树立了良好口碑,获得了各界用户的推崇和喜爱,产品享誉国内外。

Including the United States, France, Britain, Germany, Australia, Singapore, Canada, and more, Hengli machines have been sold to more than 30 nations and territories.

恒力产品已先后多次出口包括美国、法国、英国、德国、澳大利亚、新加坡、加拿大等国家在内的三十余个国家和地区。

Be collaborators with clients, learn further from clients, advance and grow with clients

Filling and packing by different containers
一次包装

Filling in bottle
装瓶

Filling in bag
装袋

Filling in box
装盒

Supply series 供料系列

Bottles will be unscrambled and conveyed to next step.
将无序的瓶子自动输送到下一位设备

Counting filling 罐装系列

Accurately counting and filling by patented counting filling machine
通过专业电子数粒机精准计数灌装

Aluminum foil sealing 封口系列

Aluminum foil electromagnetic induction sealing, air cooling technology, saving energy
电磁感应铝箔封口风冷技术，节约能源

Cap sealing 锁盖系列

Fully automatic sealing, suitable for different bottle types and caps.
全自动封口，适用不同的瓶型和盖子

Bottle supply series 供瓶系列

Automatic or orderly sending the bottle with an orderly manner automatic and clean-to-clean bottle
自动有序的送瓶 快速有序的理瓶 自动洁净的洗瓶

Desiccant plugging in 塞入系列

Desiccant, cotton sliver, medical paper will be plugged in bottles
全自动塞入干燥剂 / 棉条 / 医药用纸等

Sticker labeling 贴标系列

Different labeling machines are suitable for different packaging containers
根据不同包装容器适用不同的贴标机

From single bottle filling to cartoning
过程包装

Boxes wrapped 裹包系列

Boxes are wrapped and film-sealed by a box wrapping machine.

Machine for film heating and shrinking: Detective sensor that may be adjusted to provide a flat, smooth end product.

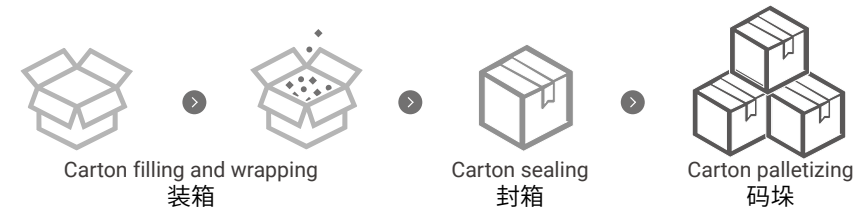

三维裹包机：对物品进行裹包 送料、热封等程序。
热收缩膜机：可调式送料高速电眼，确保裹包平整美观。

Carton filling machine 装盒机系列

It has the capability of online material conveying and detection and can be a vertical, horizontal, or top opening cartoning machine. Additionally, it is capable of carrying out manual folding, carton formation, box filling into carton, and carton sealing.

立式 / 卧式 / 上开口装盒机：具有在线物料输送与检测的功能，也可实现说明书的折叠，纸盒吸入成型、物料入盒、封口等功能。

Carton packing and palletizing
末端包装

Carton wrapping machine 装箱系列

Boxes are wrapped and film-sealed by a box wrapping machine

Machine for film heating and shrinking: Detective sensor that may be adjusted to provide a flat, smooth end product

三维裹包机：对物品进行裹包 送料、热封等程序
热收缩膜机：可调式送料高速电眼，精准锁定标签

Automatic palletizer 全自动码垛机器人系列

Robot palletizer: palletizing the box as required
Automatic carton palletizing system, all cartons will be stacked

机器人码垛机：按要求对箱体码垛
机械式码垛系统：自动将纸箱按顺序排列

Detecting device 检测设备系列

Metal detector: Detect the inclusion of metals in the product 金属检测仪：检测产品中夹杂或漏落的物质
Online weighing device: Check whether the product weight meets the set target 在线检重秤：检测产品重量与设定目标是否相符

Visual inspection device: detection of product fragments, etc. 视觉检测：残片等检测

Filling fast and accurately 精准快速灌装

Apply to filling various bottles

■ 多种装瓶方式

Bottles of different shapes, volume, transparent or opaque can be filled accurately and quickly

形状、大小各异，透明或不透明的瓶子类容器，都能做到精准快速灌装

Gummy candy filling
功能软糖装瓶

Capsule filling
胶囊精华装瓶

Chinese medicine pills filling
中药滴丸装瓶

Laundry detergent pods filling
洗衣凝珠装瓶

Freeze dried candy filling
冻干糖果装瓶

Tablets and pills filling
片剂、丸剂装瓶

Health care products filling
保健品装瓶

Powder filling
粉剂装瓶

Powder filling production line for Oasis Huaiyao Biotechnology Co., LTD

绿洲怀药粉剂瓶装生产线

- High-efficiency production line, flexible and smooth packaging process
- Top packing speed can reach 300 bottles per minute
- Equipped with dust-proof device to effectively avoid dust pollution
- Integrated carton forming and bottle filling in same system, integrated operation, process fluency

- 高速化的包装模式，过程灵活流畅
- 可达 300 瓶 / 分钟
- 配备防尘装置，有效避免粉尘污染
- 开装箱一体化操作，流程紧凑，省时省力

Quick-frozen food counting and bagging production line for a Thailand client

泰国速冻食品数粒装袋生产线

- High-efficiency packing is made possible by the equipment's ability to detect packaging items of any form, size, and texture.
- Materials used in the equipment adhere to the industry's hygienic regulations, assuring safety.
- The device's vibration track can automatically vary the amplitude for gentle packing that doesn't harm the material.
- Throughout the process, the production line operates at a low temperature while flexibly completing automated packaging tasks.

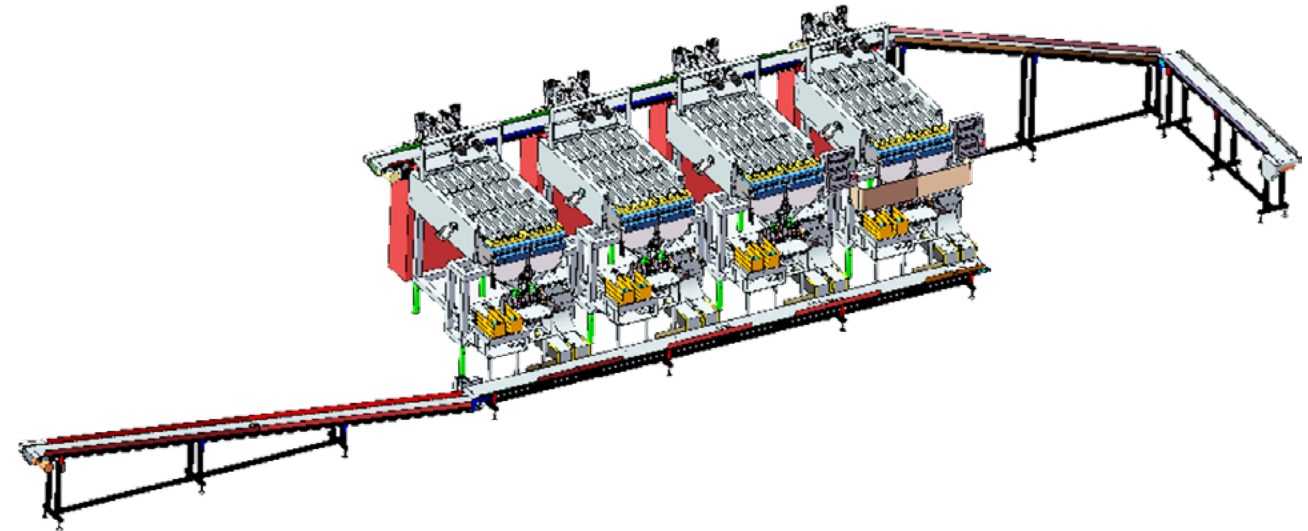

- 任何形状、大小、质地都能精准识别，高效包装
- 用材符合食品加工行业卫生标准，安全可以保障
- 振动轨道可自行调节振幅，轻柔的包装处理，不损伤物料
- 全流程在低温环境下操作，灵活完成自动化包装工作

Wufangzhai rice dumpling box filling and packaging production line
五芳斋粽子生产线

Wufangzhai needed a dependable partner with extensive knowledge in the field of packaging technology to achieve automated mixed packaging of rice dumplings due to the necessity for novel packaging. The partnership between Wufangzhai and Hengli made the growth of this collaboration easier.

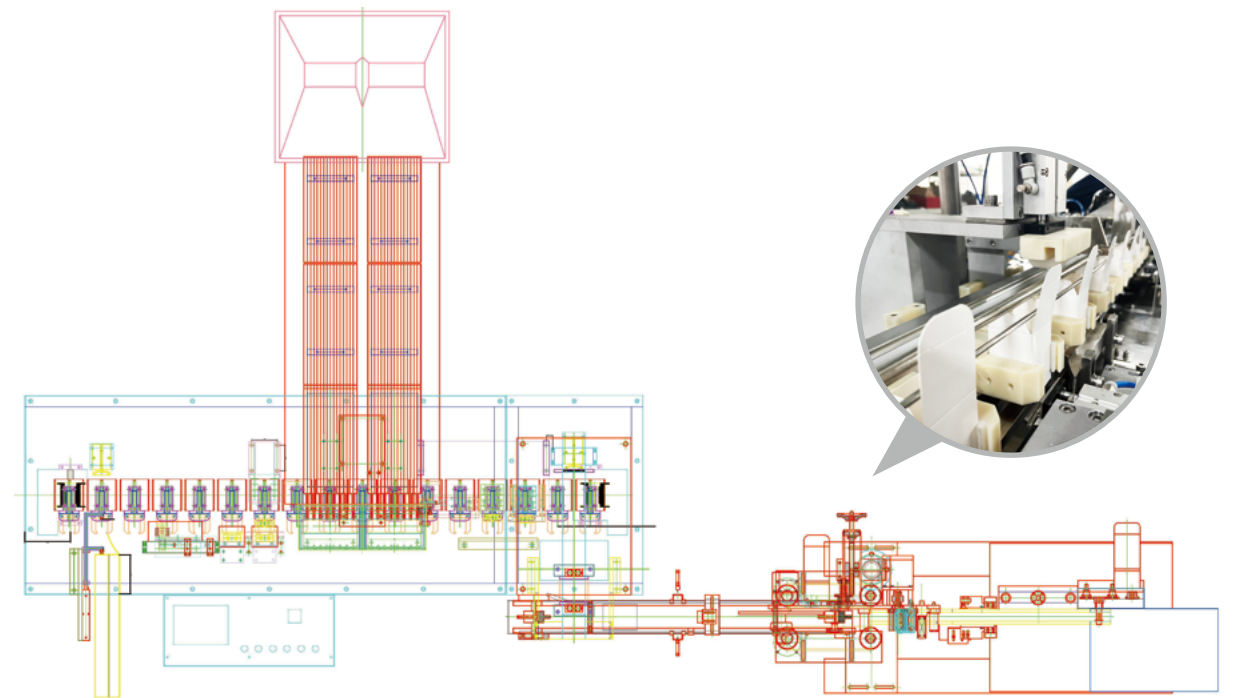

For Wufangzhai, Hengli created a special packaging strategy and ingeniously used a flexible tray-style delivery form. The rice dumplings are inserted inside the folding packing box after it has been folded into a tray. The entire packaging process is quick and easy, reducing manufacturing time and resources while also promoting product efficiency through faster packing and safer staff operations.

出于对包装形式创新的要求，五芳斋需要一位在包装技术领域经验丰富又十分可靠的伙伴来实现粽子的自动化混合包装，与恒力包装在上海国际加工包装展会上的结缘促使这次合作顺利展开。恒力包装为五芳斋量身定制方案，创造性地采用灵活的制托式供应形式，将包装盒折叠形成托盘，在最后推入折好的盒中。一整套流程运作下来，快速流畅，不仅有效节约了应用于生产的空间和劳动力，还使得速度提高，操作更加安全，让整体效益显著增加。

01 Counting filling technology 计数包装

Hengli's core technical advantages enable fast, precise counting and filling of objects of varied sizes, shapes, and materials.

恒力包装的核心技术优势，对于各种大小、形状、材质的物品都可以做到高速精准数粒、分装。

02 Combining packing products 混合包装

To address the demands of consumers for packaging innovation, different types of products are measured individually in accordance with various specifications and blended into containers.

对于不同种类的产品按照不同的要求分别计量并混合装入容器，满足用户包装创新的需求。

You to save 80% of labor expenditures, boost output, and unleash productivity!

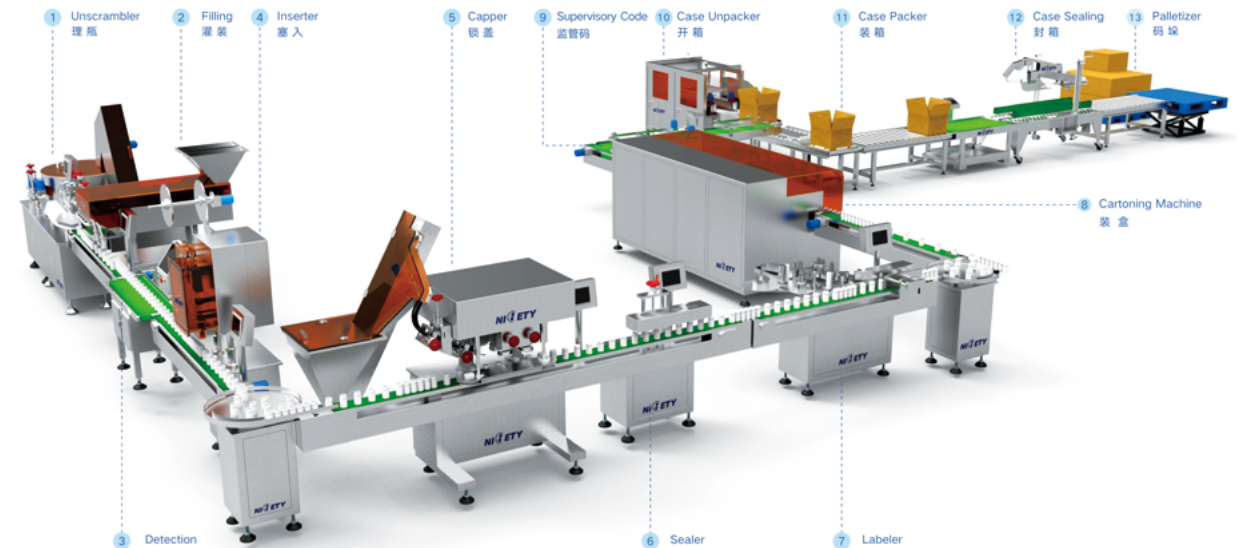

为您节省 80% 的人工成本，提高您的产量，解放生产力！

03 Adaptable packaging 柔性包装

Hengli Packaging develops cutting-edge packaging solutions. Your demands for product specification variety can be satisfied by one adaptable packing system.

恒力包装创新包装技术。一套包装设备就可以满足您产品规格多样化的需求。

04 Packing project 包装工程

Hengli is capable of realizing whole-line package engineering that is consistent and methodical, as well as coordinated planning and coordinated implementation of primary packaging, process packaging, and terminal packaging. Verify the stability and effectiveness of the packing system.

恒力包装能够实现一致性、体系化的整线包装工程，一次包装、过程包装、末端包装统一规划、统一实施。保证包装系统稳定、高效。
